FROM: Timothy Henry, Fire Chief

DATE: May 28, 2020

SUBJECT: District Audit Services Request for Proposal (RFP)

Assembly Bill 1345 added section 12410.6.(b) to the Government Code regarding auditor rotation requirements of public accounting firms providing audit services to local agencies.

Government Code section 12410.6.(b) indicates that commencing with the 2013-14 fiscal year, a local agency shall not employ a public accounting firm to provide audit services to a local agency if the lead audit partner or coordinating audit partner having primary responsibility for the audit, or the audit partner responsible for reviewing the audit, has performed audit services for that local agency for six consecutive fiscal years.

For purposes of calculating the six consecutive fiscal years, the local agency shall not consider any time that a public accounting firm was employed by that local agency prior to the 2013-14 fiscal year.

Mr. Sanborn has provided audit services to the District for six consecutive years. Per this Government Code Section, the District has to send out RFPs to prospective Auditing Firms for this year's audit. District staff will mail out the RFP to local audit firms experienced in conducting audit services for local government agencies. The submitted proposals will come back to the District Board for their review of the proposals and a new auditor for the District will be selected

Recommended Action: Information only.

To effectuate this purpose, the parties agree that their respective agencies will respond with their nearest available City Fire Unit(s) within the attached defined Automatic Aid Service Area (Exhibit "B"). The District will respond with their nearest available District Fire Unit(s) to any City jurisdiction on State Route 99 or west thereof. Neither agency is required to respond with particular identified units, however, the nearest available Fire Unit response concept shall be utilized when appropriate as it represents the foundation and rationale for this Agreement.

- a) Service Details Determined by Fire Chiefs. The specific details of providing the services under the terms as specified in this Agreement shall be determined by the respective Fire Chiefs of the parties. It is understood that all plans pertaining to the Fire Protection Services shall adhere as

closely as practical to the "Nearest Available Fire Unit" concept which forms the basis for this Agreement.

b) District Obligations to City. The District agrees to provide the following to the City:

- (1) Upon request of the City, to respond with no less than one Fire Unit as Automatic Aid within the Automatic Aid Service Area to any emergency incident(s), excluding lower priority medical calls, to complete alarm assignments as defined by the requesting party's response matrix. The responding Fire Unit will include at least three (3) career fire personnel on ladder truck(s) / fire engines and at least two (2) career staff on squad(s) or the equivalent. - (2) Upon request of the City, to respond with one Fire Unit as Automatic Aid within the Automatic Aid Service Area to Priority 1 Emergency Medical Service calls only. If any two-person response vehicle responds to the following Priority 1 Emergency Medical Service calls; Cardiac Arrest/Non-Breather, Gunshot or Stabbing, and Motor Vehicle Accident (MVA), the closest additional Fire unit will also be dispatched. Should the City upgrade its standard medical call responses to include Priority 2 calls in the future, the District agrees to respond to these lower priority calls contingent upon the City reciprocating with the same on behalf of the District. This service is provided at no cost.
- (3) Upon request of the City, the District will provide one water tender in addition to any previously assigned automatic aid resources.
- (4) Upon request of the City, the District will provide one Fire Unit with 3 career staff to cover the area within the City limits, in support of draw down caused by emergency activity. This is a general agreement of intent and does not obligate the District if its resources are unavailable.
- (5) Any requests for assistance outside of the areas established or not identified herein shall be considered a Mutual Aid request as identified in the recitals and would be subject to authorization by the responding party for each request based on availability rather than the nearest available concept.

c) City Obligations to the District. The City agrees to provide the following to the District:

- (1) Upon request of District, to respond with no less than one Fire Unit as Automatic Aid within the Automatic Aid Service Area to any emergency incident(s), excluding lower priority calls, to complete alarm assignments as defined by the requesting party's response matrix. - c) Officer in Charge. The officer-in-charge of the first arriving unit shall be in charge of the incident until command is transferred to an officer of the requesting party. All apparatus at the scene of an emergency will be under the command of the Incident Commander ("IC"). The first arriving chief officer, regardless of jurisdiction, may assume command until relieved by a chief officer of the agency having jurisdictional responsibility. Every effort will be made to operate as a single attack force rather than separate agencies.
- d) Incident Commander. If an IC requires additional resources to augment the emergency response, they shall order them through the jurisdictional agency dispatch center of the agency having jurisdictional responsibility. There will always be one ordering point for any incident, and this will be determined by the agency which has jurisdictional authority for the incident.
- e) Early Release of Resources. Both parties agree to release the other agency's resources as quickly as operationally feasible to limit commitment times.
- f) Incident Command System. The incident Command System (ICS) shall be used on every incident.

The parties shall work cooperatively to develop and maintain common radio communications protocols to assure adequate communications exist while jointly responding to emergency incidents. In addition, work cooperatively and actively to deploy dispatching methods and Automatic Vehicle Location (AVL) tracking capabilities to improve response times, reduce unnecessary delays, and provide for accountability. Specifically, both agencies will support the Computer Aided Dispatch (CAD) interagency interface (CAD to CAD) system in conjunction with live AVL data exchange to ensure the closest unit is recommended and utilized without unnecessary delays and develop specific operating

procedures that ensure dispatching accuracy.

- j) Notifications. When advised of an emergency incident within the other's jurisdiction, each party will make immediate notification of the incident to the jurisdictional agency.

MEMORANDUM

TO: North Central Board of Directors

FROM: Timothy Henry, Fire Chief

DATE: May 28, 2020

SUBJECT: Weed Abatement Public Hearing and Notices

The first public hearing for the weed abatement season is scheduled for tonight.

District engine companies inspected a little over 400 lots in the first week of May. The lots inspected were the properties and areas in the District repeatedly in violation of the District abatement program in the past few years. During the inspections, several more lots in the District were discovered that need abatement. Of the lots inspected and discovered during the inspections, 241 were not abated and received a "Notice to Destroy Weeds." Last year at this time 114 notices were mailed out. The notices were mailed to property owners on May 11th through the 15th.

After the public hearing being held tonight, engine companies will begin to re-inspect the lots receiving notices. Lots not abated will be assigned to the District's abatement contractor to abate, and the charges will be added to the tax roll by resolution adopted by the Board in July.

Attached is a list of the properties receiving the "Notice to Destroy Weeds" for review by the Board.

Recommended Action: Conduct Public Hearing and review list.
